Student Recruitment/Disclaimer Form

Arizona College/University AOD Survey

You are invited to voluntarily complete the survey found at the attached Internet link. It is being administered to a random sample of UA, NAU and ASU students as part of a grant titled, "Implementing an Arizona Institutions of Higher Education Statewide Survey to Address Student Alcohol and Other Drug Use." The purpose of this grant is to implement a statewide survey, the Arizona College/University AOD Survey, that will identify alcohol and other drug (AOD) norms, trends, attitudes, knowledge and efficacy of AOD programming for the majority of Arizona university students. There are no guaranteed benefits associated with completing this survey; but the information will be used to determine changes in these variables over time and to determine changes in programming needs for students. This survey takes approximately 10 minutes to complete. Please read each item carefully.

The data will be entered into a database with no links to your email address and no identifying information, thus guaranteeing your anonymity. Therefore, please answer honestly.

Upon submission of the completed survey, you will automatically be sent to a web site where you can voluntarily submit an email address of your choice to enter a raffle for a variety of prizes ranging in value from \$25 to \$50. This database is separate and hosted on a different server so your name cannot be connected to the submitted survey.

There is a possibility that information revealed during this survey may be sensitive in nature and could possibly cause emotional distress to a participant. In the event that a scenario such as this one arises, the following Campus Health resources are available to assist the participant:

Counseling & Psychological Services (CAPS).....621-3334
Health Promotion & Preventive Services (HPPS).....621-6483
Oasis Center for Sexual Assault and Relationship Violence.....626-2051

You can obtain further information from the principal investigator, Dr. Peggy Glider, at (520) 621-5973. If you have questions concerning your rights as a research subject, you may call the Human Subjects Committee office at (520) 626-6721. Thank you for your participation.

NOTE:

If you are under the age of 18, **DO NOT** complete this survey.
This survey is voluntary; you are free to leave any items or the entire survey blank. By returning a completed survey, you are granting permission to the Campus Health Service to use the information for program development and evaluation.
